ASSIGNMENT 2
E-COMMERCE SITE

Static, Responsive Pages

Name	Urwa Faisal
Roll Number	FA24-BCS-110
Course	CSC336 - Web Technologies
Semester	Fall 2026
Reference Website	Limelight Pakistan

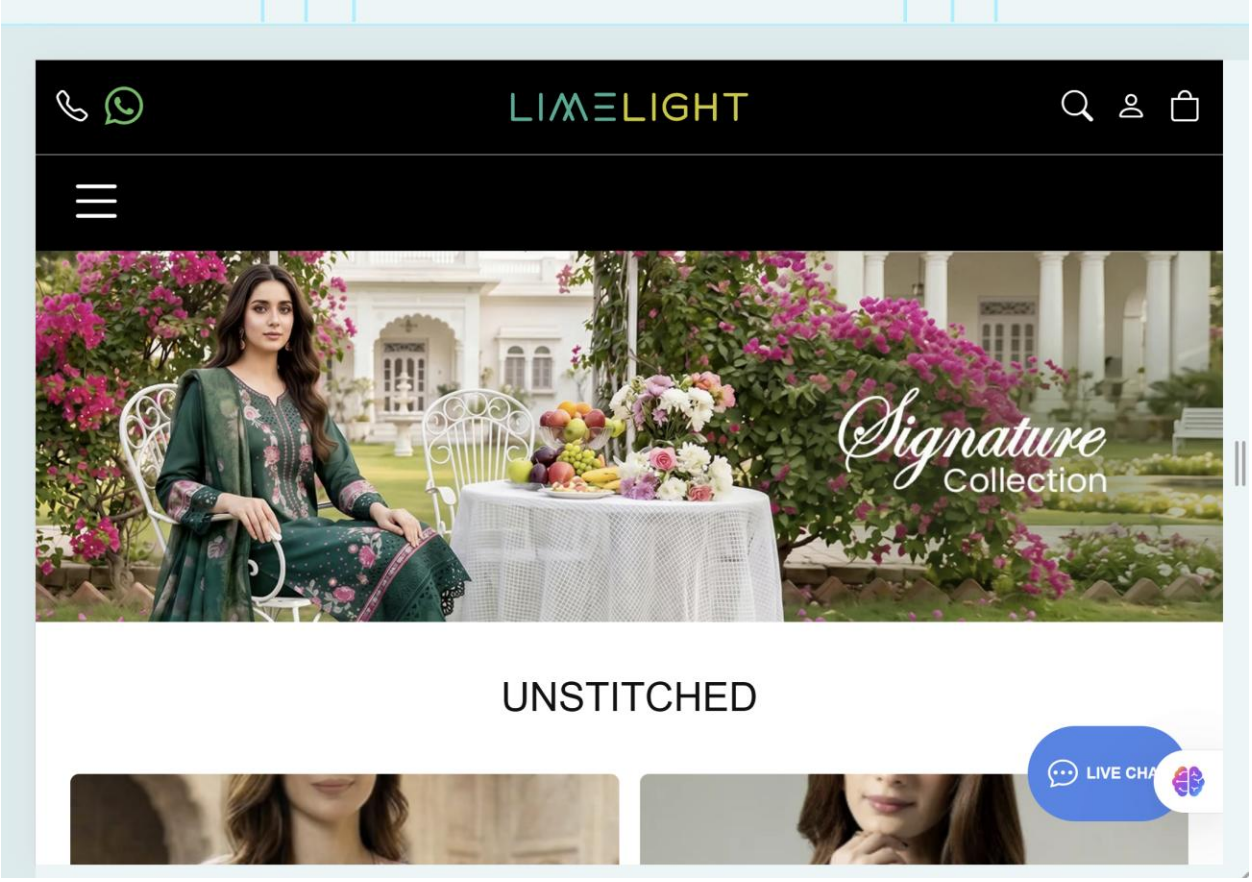

Homepage - Desktop View

Desktop view of the completed e-commerce homepage.

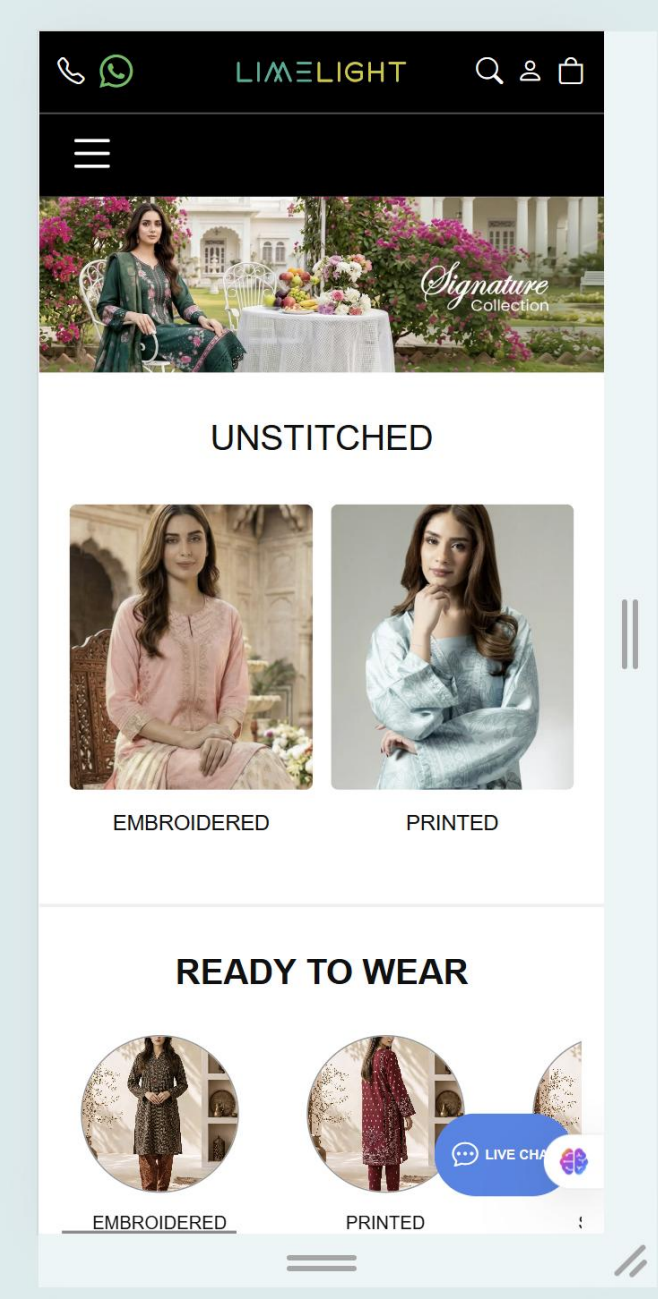

Homepage - Tablet View (768px)

Responsive tablet view of the homepage at approximately 768px width.

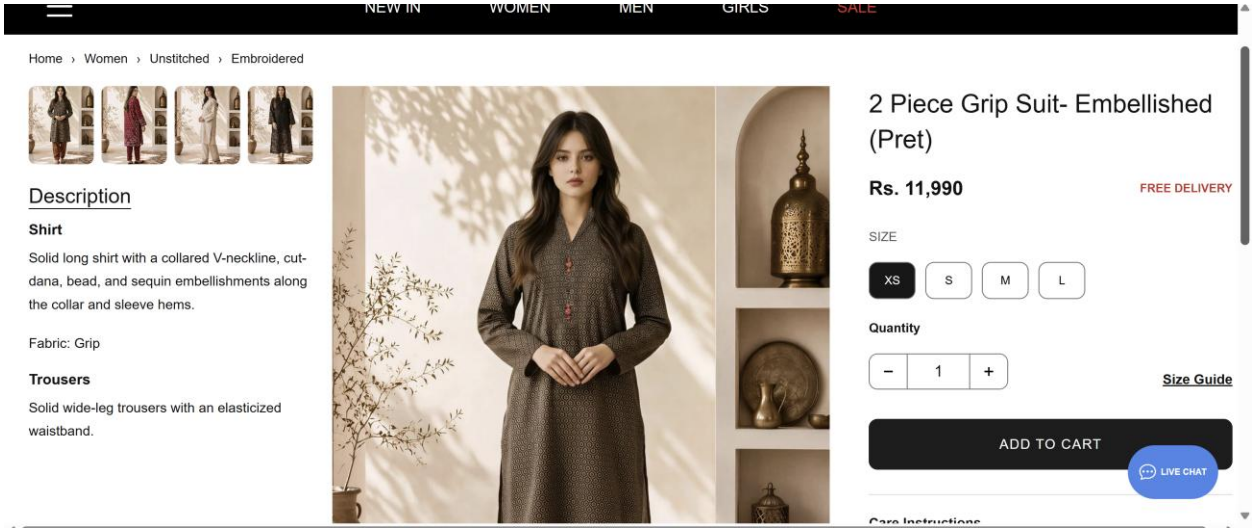

Homepage - Mobile View (375px)

Responsive mobile view of the homepage at approximately 375px width.

Single Product Detail Page

Product detail page showing the product image, name, price, description, size options, quantity selector and Add to Cart button.

Implementation Summary

The website was developed as a static responsive e-commerce interface using HTML, CSS and Bootstrap 5. The layout includes a responsive navigation area, product listing, product detail page and consistent footer. The responsive design was tested at desktop, tablet (approximately 768px) and mobile (approximately 375px) widths.
