

LAB ASSIGNMENT: 1

COURSE: WEB TECHNOLOGIES

SUBMITTED TO: USMAN AKRAM

SUBMITTED BY: URWA FAISAL

ROLL NO: FA24-BCS-B- 110

1. Assignment Statement

Assignment 1 — Your Personal CV Page

Build a single-page personal CV/resume as a static HTML + CSS website. No JavaScript or framework should be used. The webpage should use semantic HTML5 and hand-written CSS.

The CV page should include:

- A header containing name, a short professional tagline, and a photo.
- An **About Me** section.
- An **Education** section showing academic history using an appropriate semantic structure.
- A **Skills** section.
- A **Contact** section containing a working mailto: email link and at least one social or portfolio link.
- Appropriate semantic HTML5 elements such as <header>, <nav>, <main>, <section>, <article>, and <footer>.
- All styling should be written in a separate styles.css file.
- CSS should demonstrate proper use of the box model, including margins, padding, borders, and spacing.

The final submission should contain the HTML file, CSS file, required image(s), and the completion PDF.

About Me

I am a 5th semester BS Computer Science student at COMSATS University Lahore with a strong interest in web development, programming, and emerging technologies. I enjoy learning new concepts and applying my knowledge through academic and practical projects. I have experience working with languages such as Python and C++ and am currently developing my skills in HTML and web technologies. I am a responsible and motivated learner with good communication, problem-solving, and teamwork skills.

```

Completion Statement:

I have completed Assignment 1 by developing a single-page Personal CV website using semantic HTML5 and external CSS. The webpage includes my profile information, education, skills, projects, interests, contact information, and relevant links. The completed website files and this completion PDF have been added to the assignment-1 folder of my semester GitHub repository.
